
EXECUTIVE SUMMARY REPORT

Van Matre Encompass Health – Rockford Refresh

May 6th, 2020

What's New?

Good morning and welcome to our executive summary report! We are currently in our second phase onsite, but due to the lower census currently, we were able to take a few extra patient rooms. We currently have demolition completed, MEP rough-ins almost completed, and skimming of the halls started!

Coming Up in the Week Ahead:

- Skimming walls
- Painting walls
- Hanging drywall in the bathrooms
- Finish rough-ins

Did you know?

HISTORY! Schmeling Construction has been around for over 100 years as well! In September, we will be 117 years old, and now have 5 generations who have been part of the company! Emil W. Schmeling, an industrious German immigrant, started the company in 1903. By 1922, Emil divided the business among his five sons: William, Walter, Elmer, Albert and Robert. Our corporate philosophy was established by Emil more than 100 years ago and still stands true today: "Do it right!" Emil grew his business by following this simple, yet critical rule. Honesty, integrity, excellence and commitment are the tools still used today to provide the highest quality product to all our customers.
